

## Integrated concepts 1.

Type of cards (most likely need the internet)

The multi language → Have a word and image and need to say in another language

The action card → have multiple players act a scene out about how different nationality do stuff differently (e.g. greeding, or marriage).

The speech card → Player need to use a single word to express the mood in the card and other player guess

more possible ideas → combine card to have additional effects

Obj: To gain the most point (collection of card).

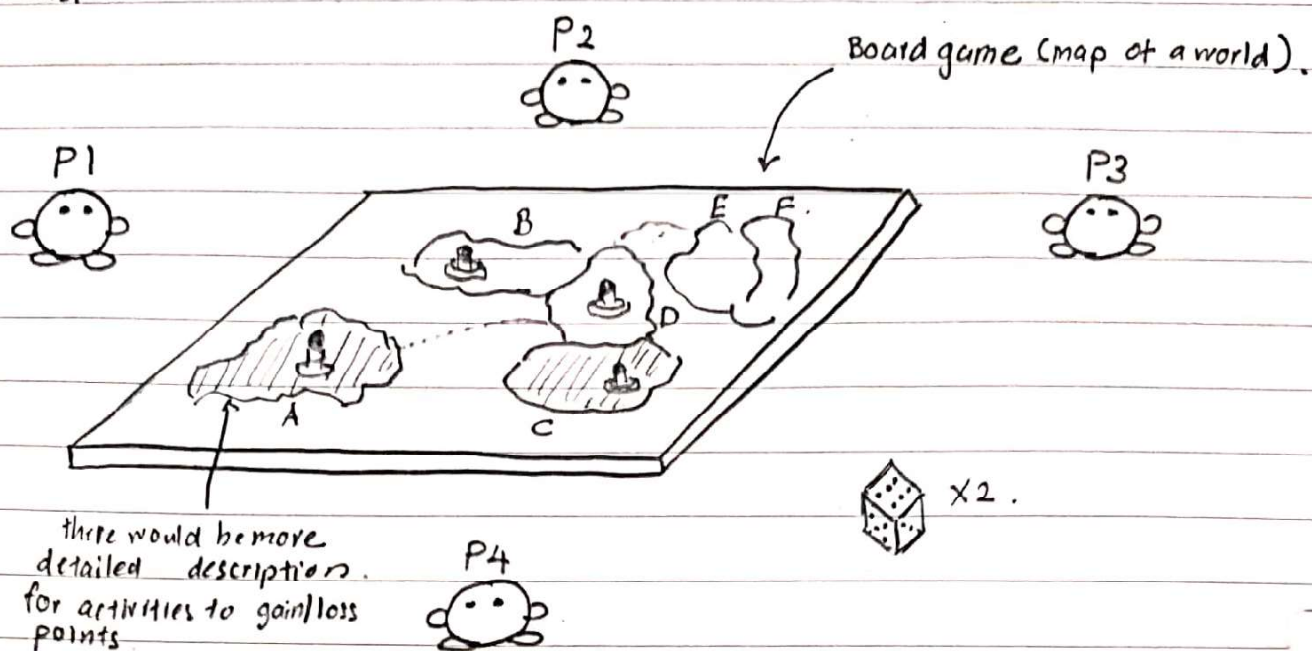

The point (cards) would be determine by player who give the card for those multiplayer. However if the player used it on himself, then he can't get the point

NO.: .....

Date: .....

Integrated concept 2.

ARD the world.

Obj: to travel and the board to make more friends and be well known by knowing each country ethic or social skills.

to win: Able to travel around the world and have at least 1 friend of every country.

• In order to gain friends, we need to gain a certain amt of point through the activities in that region, and players need a certain way well being in the region. else there would be penalty.

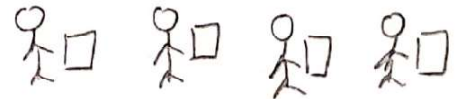

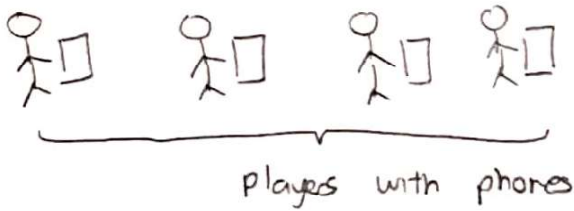

• Activity range from words used, the manners. to Quiz of type of food.
